

# OUSSAMA EL QABBAB

👤 Oussama EL QABBAB, 20 ans

First-Year Engineering Student – Digital Sciences

ENSEEIH (N7) – Toulouse, France

Passionate about computer science, digital technologies, and data science. Curious, motivated, and detail-oriented, I aim to develop both my technical and interpersonal skills through innovative projects combining science and technology.

📍 | Toulouse

## SKILLS

- Ada
- Python
- Analytical thinking and problem-solving
- Understanding of digital systems and algorithms
- Team collaboration and project management

## QUALITIES

- Creativity
- Adaptability
- Excellent interpersonal skills
- Team spirit
- Results-oriented

## EXPERIENCE

Scientific Project – TIPE: Research on optimizing the electroacoustic conversion of an electrodynamic loudspeaker.

International Program – Stevens Initiative Global Exchange: Collaboration with an American university to present the most beautiful cities in Morocco and promote cultural exchange.

Competitions: Participation in computer science contests and the Mathematics & Physics Olympiads.

Volunteering: Involvement in local associations, supporting educational and social initiatives.

## FORMATIONS

National Higher School of Electrotechnics, Electronics, Computer Science, Hydraulics and Telecommunications (ENSEEIH – N7)

👉 Major: Digital Sciences, First year of the Engineering Progra

## LANGUAGES

- French: fluent
- English: intermediate to advanced
- Spanish: beginner
